- The degree is designed to prepare you for a career in Marketing.
- The specialization areas enable an individual focus in the field of Marketing.
- The programme gives you the opportunity to gain real life business experience through a **compulsory four** (or 616 hours) **to six** (or 924 hours) **month long internship (full-time)**.
 - The compulsory internship needs be done in the respective foreign country, i.e. in Germany for French students and in France for German students. The Career Services of the Université de Lorraine and the University of Passau can support the students in identifying potential firms for the internship.
 - All courses at the Université de Lorraine are offered as block courses so that students have the opportunity to combine their studies with a full-time position in a firm (similar to “Duales Studium” in Germany and to “contrat de professionalisation” in France). In this case, students have generally a weekly rotation, alternating courses and presence time in the company.
