

The **University of Passau** owes its strong visibility and good reputation to excellent research, innovative teaching and its tight-knit international academic networks. Some 13,000 students from 100 countries and more than 1,200 staff study and work on our university campus, which is located a stone's throw from the historical Old Town of Passau and combines state-of-the-art technical infrastructure with award-winning architecture. Internationally successful high-tech companies and a vibrant start-up scene, coupled with a rich culture and Lower Bavarian traditions, give Passau and the surrounding area a special appeal that makes it a great place to live and work.

The **Chair of Organisation, Technology Management and Entrepreneurship** (Professor Carolin Haeussler) is seeking a

Graduate Research and Teaching Assistant

at 0.75 full-time equivalent for a fixed term of two years, with the possibility of extension. The position will be available as of 15 May 2021. It will be remunerated at pay grade E13 TV-L (public-sector collective agreement of the German federal states).

Job description

We are looking for a motivated person with initiative and passion for research and teaching. In order to ensure the best possible supervision for your research work and to facilitate points of contact for joint projects, your research interests should fit well with ours (e.g. open innovation, open science, alliance governance, entrepreneurship, platform-based innovation, team science). We are well networked with international researchers and attach great importance to international cooperation and visibility. It is important to us that scientific findings make a real impact on society. The position offers the opportunity to assist in evidence-based policy advice (Expert Commission on Research and Innovation of the German Federal Government) and to gain valuable insights.

Person specification

You have a very good master's degree in economics or one of the other fields related to our research (e.g. computer science or biotechnology). Since our research is primarily empirical, it is important to us that you have an interest in and initial experience with empirical quantitative research methods. Preferably, you have already established methodological foundations during your degree studies and applied them when writing your seminar papers, dissertation or thesis, or in subsequent research projects. You should have a good command of written and spoken English. Initial experience in university teaching would be an advantage. You will fit in well if you are a team player, committed, interested, enthusiastic, open to new things and willing to take on responsibility.

Interested?

Please send us your full application by **9 April 2021**. Applications are only accepted by e-mail and should be enclosed **as a single PDF file**. Your application should include your curriculum vitae, a letter of motivation outlining your research interests and experience, and your secondary and tertiary education certificates indicating your marks and final grades, i.e. your secondary school leaving certificate/report card and the final transcripts for your bachelor's and master's degree (or, if not available, the latest available transcript); you should also include copies of your seminar papers or bachelor's dissertation/master's thesis written during your previous university studies. Please send your application to Professor Carolin Haeussler at carolin.haeussler@uni-passau.de. If you have any questions regarding the vacancy, please contact Professor Haeussler directly.

This position is suitable for those who are registered disabled. Registered disabled persons are given preference over non-disabled applicants who do not otherwise have statutory preferential status if their overall personal aptitudes, skills and qualifications are equal.

The University of Passau is keen to ensure equal opportunities for all members of staff and therefore welcomes applications from men and women of all cultural and social backgrounds, without regard to age, religion, world view, disability or sexual identity.

E-mailed applications are kept on file for up to six months after the conclusion of the hiring procedure, whereupon they are deleted from our systems. Please visit www.uni-passau.de/en/university/current-vacancies for our data privacy statement.
