Interdisciplinary Lecture Series

Fundamentals of Digitalization and Digital Trends (On Thursdays, 2-4 pm, JUR HS 14; refer to Stud.IP course numbers 38606/38609)

This interdisciplinary lecture series addresses fundamental digital trends within our society. In the summer term 2018, the focus of the lecture is on "digital health". The lecture series invites scholars from the university, distinguished guest scholars, and practitioners to discuss technological developments and their impact on businesses, the economy, and society.

You will receive 5 ECTS for the lecture series as part of your Pathfinder Certificate (bachelor and master) and also possibly as part of your study program. For further information on the latter, please consult your "Modulkatalog" or contact the supervisor of your study program or the pathfinder contact person.

You can find the entire program of the lecture series on Stud.IP and on the DTE homepage.

UNIVERSITÄT PASSAU

Pathfinder Certificates in

Digital Technology and Entrepreneurship

Entrepreneurial Pathfinder (Bachelor)
Advanced Entrepreneurial Pathfinder (Master)
Legal Pathfinder (Law Students)

Digital Technology and Entrepreneurship Certificates (DTE)

Entrepreneurial Pathfinder Certificates (Bachelor and Master)

Are you passionate about digital technologies and entrepreneurship? Would you like to gain a deeper insight into these topics and show your expertise to potential employers?

If your answer is yes, the Entrepreneurial Pathfinder Certificate is your choice. It provides you with interdisciplinary insights and an understanding of the challenges and opportunities within these fields. And it allows you to develop new ideas and become part of a vibrant network of entrepreneurially minded people.

Legal Pathfinder

Are you a law student and interested in legal issues associated with entrepreneurship and startups? In the Law Clinic, you will advise entrepreneurs and help them find their way through the jungle of legal pitfalls.

Requirements of the Entrepreneurial Pathfinder programs

Program duration: 2 semesters

Three courses with at least 15 ECTS

Of which at least
- One course has to be at another faculty
- One course is not part of your regular degree

One course can also cover both criteria.
A maximum of two course can be part of your regular curriculum.

Participation in the DTE Pathfinder Forum

The platform where you can exchange your ideas, projects, thoughts, and experiences with other pathfinder students.

DTE Project (2 ECTS)

Project report and project presentation within the DTE Pathfinder Forum.

Courses for the Entrepreneurial Pathfinder

As an Entrepreneurial Pathfinder or Advanced Entrepreneurial Pathfinder, you enroll in three courses with at least 15 ECTS. Of these courses at least one course has to be offered by another faculty and one course cannot be part of your regular degree.

Courses such as a lecture series on digitalization and digital trends, informatics, data and media law, media psychology, innovation, technology, and digital marketing are offered at the different faculties. Dive into the different perspectives on digital technology and entrepreneurship to gain a sound understanding!

You can find the complete course list on the DTE homepage and on Stud.IP.

DTE Pathfinder Forum

The student-organized DTE Pathfinder Forum provides a unique and vibrant platform for sharing experiences, exchanging ideas, and presenting projects. It will start during the summer semester 2018.

DTE Project

In the DTE Project, you can pursue an idea or project related to entrepreneurship and digitalization on your own or in a team. For example, you can participate in a startup challenge, advise a startup, organize a guest speaker for the DTE Pathfinder Forum – any initiative related to digital technology and entrepreneurship is highly welcome.

After completion, you will turn in a project report and present your DTE Project to the other DTE Pathfinders in the DTE Pathfinder Forum.
